We believe learning should be a lifelong experience, and we offer a wide variety of enrichment courses for all interests. We work with our students to ensure our trainings and courses exceed all requirements and on a schedule that is best for them. Our team's mission mirrors that of UAHT as we strive to offer comprehensive educational services to our communities in Hempstead, Lafayette, Nevada, Miller, Bowie and Cass counties. We also offer over 300 online options through our Ed2Go courses.

Hempstead Hall and the University of Arkansas Hope-Texarkana are proud to offer free training space for our area businesses. Hempstead Hall will waive the room rental fees for any event where job-related training is being offered by a sponsoring Hempstead County business or industry as long as the event is being offered free-of-charge to the attendees. (Fees for specialized equipment, additional services, set up and/or off-schedule use may still apply.)

Tania Martinez, ASBTDC Consultora
bilingüe de negocios

Arkansas Small Business and Technology Development Center está financiado en parte a través de una asociación con la Universidad de Arkansas en Little Rock College of Business, Health, and Human Services y la Administración de Pequeñas Empresas de los Estados Unidos. Todos los programas se extienden al público sobre una base no discriminatoria. Servicios de asistencia lingüística están disponibles para personas con dominio limitado del inglés. Se harán adaptaciones razonables para personas con discapacidades si se solicitan con al menos dos semanas de anticipación. Contacta tmartinez@ualr.edu.

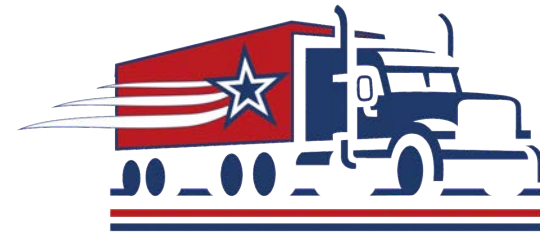

WORKFORCE DEVELOPMENT

Southwest Arkansas has many amenities that make it perfect for both large industries and small businesses to call home. Through the UAHT Industry Relations and Workforce Development departments, we provide employers the tools to connect with well-trained employees, further training to existing employees, and offer customized training solutions

FIBER OPTIC TECHNICIAN PROGRAM

UofA
HOPE • TEXARKANA

This Fiber Optic Technician program, co-designed with industry partners, provides participants with an opportunity to embark on a meaningful and rewarding career in the Fiber Broadband industry. Classroom and hands-on field experiences equip students with the knowledge, skills and abilities employers look for when hiring Fiber Optic Technicians to install, maintain, and troubleshoot Fiber Broadband to the home or business. Upon completion, students will be prepared for industry certification.
