

## Questions and Answers Regarding Request for Proposals for Energy Savings Project Financing

1. Are there any prepayment plans, ie. Grants,etc?

The College has no current plans for early repayment, but prepayment penalties after the first five years of the loan would likely negatively impact the scoring of an RFP response.

2. Upon hypothetical default of loan, are there any protections from the State of Arkansas on the defaulted amount?

The obligation would be backed by the full faith and credit of the Board of Trustees of the University of Arkansas. The loan would not be an obligation of the State of Arkansas.
